To whom it may concern:

It is hereby certified that Mr. Gaurav Bipinbhai Gurjar worked as Data Scientist with our organization from 05/2020 to 03/2021. During his tenure, we found him to be sincere, hard-working, and efficient. We wish all success in his/her future endeavours.

I have had the opportunity to gain a great appreciation for his knowledge and abilities as student, researcher, and as an individual. From my perspective, some of his core attributes that will lead his toward success is solid academic foundation, drive, character, persistence in study and strong leadership.

Gaurav worked with me researching the implementation of the ICare R library and worked to assist in the implementation of a backend server that would be used in a COVID-19 risk calculator web application that was ultimately used by over 2 million people around the country to understand their COVID-19 risk. (www.covid19risktools.com)

To summarize, I highly recommend Mr. Gaurav Bipinbhai Gurjar. I assure you that he is one of the hardest working and brightest students/employees that I've ever met and had the opportunity to mentor. If you're looking for student or employee with a broad range of knowledge, academic excellence, community involvement, and high character, I think Mr. Gaurav Bipinbhai Gurjar will be a great candidate. If you have more questions concerning his work, academic performance, character, or community service, please contact me by telephone or email. Your favorable consideration with his application will be greatly appreciated!
